CALL FOR PAPERS

The organising committee for this symposium is pleased to announce the Second Call for high-quality papers of original research on mine hazard prevention and control technology. The organising committee will consider submissions that are of significant interest to the industry and research community. Topics of interest include, but are not limited to:

- Ground pressure and strata control technology
- Smart mining and safety monitoring technology
- Theory and technology for coal burst and mine earthquake prevention
- Theory and technology for gas control and utilization
- Theory and practices of mine dust control
- Health and safety in mines
- Emergency management and information technology
- Post-mining rehabilitation and ecological restoration technology
- Carbon capture and reduction technology

High-quality papers will be recommended for publication in **International Journal of Coal Science and Technology, **Journal of Industrial Safety and Deep Underground Science and Engineering**.*

KEY DATES

Abstract Due: 1st July 2024

Full-Length Paper Due: 1st August 2024

Speaker Registration Due: 5th September 2024

Final Program Launch: 10th September 2024

Symposium: 01st-03rd October 2024

HOSTS

- University of Wollongong (UOW), Australia
- Shandong University of Science and Technology (SDUST), China
- China University of Mining and Technology (CUMT), China
- Shandong Energy Group (SDE), China
- Nagasaki University (NU), Japan
